### **Policy of the Board**

1. It is the policy of the Waterloo Regional Police Services Board with respect to traffic management, traffic law enforcement and road safety that:
  - a. technical collision investigation, reconstruction and breath analysis investigative supports will be provided by members of the Service; and
  - b. the Chief of Police will:
    - i. develop and implement a traffic management plan that addresses:
      - the use of statistical analysis to assist in the development of selective traffic enforcement initiatives at targeted areas;
      - the analysis of traffic activity in the Region for the purpose of identifying high/repetitive incident locations in order to develop strategies for improving traffic safety;
      - consultation with members of the community and related agencies;
      - communication with all areas of the Service concerned with the traffic law enforcement and road safety;
      - education and training for all members involved in traffic law enforcement and road safety;
      - establishing procedures on traffic management, traffic law enforcement and road safety, including procedures to address road closures and minimizing the interference of traffic; and
    - ii. ensure that members who provide technical collision investigation, reconstruction and breath analysis investigative supports have the knowledge, skills and abilities to provide that support.
